SUMMARY

Frontend-focused Software Engineer with professional experience building Progressive Web Applications using React and Vue.js. Skilled in JavaScript, MERN stack development, and Agile collaboration. Experienced delivering user-focused interfaces and independently managing full web development projects.

TECHNICAL SKILLS

Languages: JavaScript, Typescript, HTML, CSS

Frontend: React.js, Vue.js, Nuxt.js, Bootstrap

Backend: Node.js, Express.js, MongoDB

Tools: Git, Axios, SwaggerHub

PROFESSIONAL EXPERIENCE

Purpose Financial — Front End Engineer

June 2022 – January 2025

Greenville, SC

- Developed and maintained Progressive Web Application interfaces using Vue.js and React.js
- Migrated frontend framework from Vue.js to React.js to improve maintainability and modernize architecture
- Collaborated with QA, UX, and development teams during Agile sprint cycles
- Analyzed application requirements and database documentation to support accurate implementation

Independent Web Developer

Remote

2025 – Present

- Designed and developed responsive websites and interactive interfaces using React, JavaScript, HTML, and CSS
- Managed full development lifecycle independently — requirements gathering, implementation, revisions, and delivery

United States Army — Civil Affairs Specialist

Southfield, MI

2013 – 2019

- Trained and mentored 30+ personnel on cultural awareness and operational procedures
- Gathered and analyzed information; prepared concise briefings and reports for leadership decision-making

PROJECTS

Ciphercom-1 — React Encryption Application

- Developed a React application for One-Time Pad encryption and decryption with an intuitive interface for secure message handling

GameTrak — MERN Stack Application

- Led development coordination as project owner, organizing Scrum meetings, tracking progress, and collaborating on MERN application features.

EDUCATION

Kenzie Academy — Full-Stack Software Engineering Program

GPA: 98%

Technologies: JavaScript, React, HTML, CSS, Node.js, MongoDB

Oakland University — Bachelor of Arts

December 2019

Rochester, MI
